PROFESSIONAL SUMMARY

Digital product and marketing professional with experience in marketing automation, workflow design, UX, and AI-assisted prototyping. Built a custom CRM for a home-services business and managed multi-channel campaigns for 10 university partners.

EDUCATION

Virginia Commonwealth University, School of Business

B.S. in Marketing, Concentration in Product and Brand Management | Minor in Entrepreneurship

Cum Laude | Dean's List 2023, 2024, 2025

Richmond, VA

May 2025

EXPERIENCE

Two Ocean Education Partners (MarketView)

Campaign Manager

Richmond, VA

November 2025 – June 2026

- Executed high-volume email and SMS campaigns via Iterable and supported Facebook/Meta campaign operations for 10 university partners targeting prospective students and parents through peak enrollment cycles.
- Sourced and segmented student and parent audiences through College Board and Encoura using academic, geographic, and demographic criteria established with Client Success and Analytics teams.
- Conducted campaign QA and inbox-placement testing, verified audience records and journey logic, and monitored Facebook ad engagement and comments in Meta Ads Manager.
- Managed daily campaign timelines and deployment tracking in Monday.com, coordinating work across Creative, Project Coordination, Account Management, and Client Success teams.
- Documented recurring workflow inconsistencies that helped surface an Iterable platform issue later validated by engineering; tracked daily deployments in Monday.com across cross-functional teams.

Feed More

Marketing and Outreach Intern

Richmond, VA

April 2024 – August 2024

- Conducted field research across Meals on Wheels dispatch sites, interviewing volunteers and dispatchers and contacting former volunteers to identify onboarding, wayfinding, and operational pain points.
- Collaborated with a cross-functional intern team to improve the volunteer experience through revised onboarding materials, new signage, and recommendations for dispatch-site layout and flow.

YMCA of Richmond

Membership Coordinator

Midlothian, VA

May 2023 – September 2024

- Managed member accounts, registrations, payments, membership changes, and facility inquiries while delivering high-touch customer service in a busy front-desk environment.
- Trained new staff, supported membership enrollment, and helped resolve member questions and concerns, escalating more complex issues when needed.

StandWithUs

Emerson Fellow

Los Angeles, CA

September 2022 – May 2023

- Led campus education and advocacy initiatives at VCU, organizing 4 events and engaging students with varied perspectives in constructive dialogue on complex, sensitive topics.
- Managed event outreach, promotion, tabling, and student engagement while creating supporting promotional materials for campus programming.

PROJECTS

Custom CRM & Operations Platform | Independent Project

August 2026

- Partnered with a local home-services business owner to map the full lead-to-job workflow and translate operational needs into a centralized CRM and scheduling platform.
- Designed and built a mobile-friendly system using Base44 and Claude that manages customer records, job scheduling, technician assignments, workflow stages, and administrative information in one place.

Verdantly | AI Plant-Care App (Independent Project)

July 2026

- Conceived, designed, and built a fully functional AI plant-care app prototype with AI-assisted development tools, including its brand identity and visual system.
